What Are the Key Steps I Need to Take to Ensure I'm Ready for Graduation?

For 11th and 12th graders approaching graduation, staying organized and proactive is crucial to ensure you're ready for this significant milestone. Here are the key steps you should take:

1. Academic Requirements

- **Check Credits**: Regularly meet with your academic advisor to make sure you're on track with all required credits and courses for graduation.
- **Maintain Grades**: Keep your grades up to meet any GPA requirements and to bolster college applications if you plan to pursue higher education.

2. Standardized Tests

- **SAT/ACT**: If you haven't already, prepare for and take the SAT or ACT, important for college admissions.
- **AP Exams**: Consider taking Advanced Placement exams if you're enrolled in AP courses, which can earn you college credit.

3. Career or College Preparation

- **Career Planning**: If you plan to enter the workforce or a trade, seek internships or part-time jobs in your field of interest for practical experience.
- **College Applications**: Start early—research colleges, gather materials for applications, write essays, and meet all deadlines.

4. Documentation

- **Transcripts and Recommendations**: Request your transcripts early and ask for letters of recommendation from teachers or mentors who know you well.

5. Ceremonial Preparations

- **Cap and Gown**: Order your cap and gown, and any other necessary items for the graduation ceremony.
- **Senior Activities**: Participate in or attend senior year activities, which can be significant for creating lasting memories.

By following these steps, you'll ensure that you are not only prepared for graduation but also set up for success in your future endeavors, whether in further education or beginning your career.
