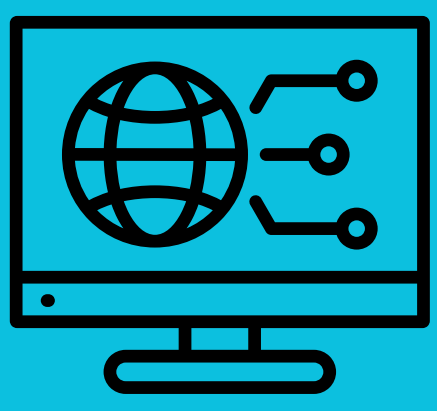
POWERING THE WORLD'S TECHNOLOGY

ASML is a global leader in the semiconductor industry, building the machines that make computer chips used in smartphones, laptops, cars, and more. With a growing presence in Wilton, CT, ASML US Inc. designs and manufactures high-precision systems that are critical to modern electronics. If you're into robotics, optics, or engineering, this is one of the most advanced tech companies in the state.

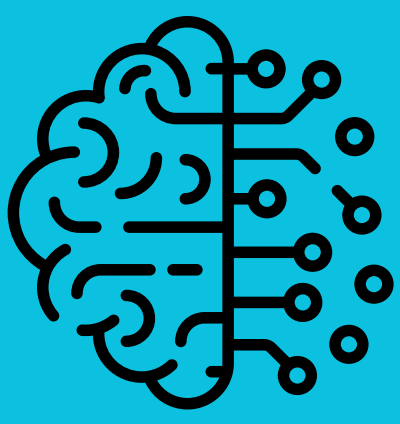


PREMIUM BENEFITS IN HIGH-TECH WORKSPACES

ASML offers excellent salaries, full health and dental insurance, generous paid time off, 401(k) with matching, tuition reimbursement, and wellness programs. Employees also enjoy modern facilities, cutting-edge tools, and the chance to work on world-changing technology in a global company that invests heavily in its people.

A LAUNCHPAD FOR STEM CAREERS

Whether you're interested in mechanical design, cleanroom assembly, software engineering, or systems testing, ASML provides internships, apprenticeships, and early-career roles. Many employees start in technician or support positions and grow into engineering, logistics, or project leadership roles.



INVENTING THE FUTURE OF COMPUTING

At ASML, you help create the machines that build the chips inside nearly every electronic device on Earth. It's a mission that pushes science and innovation to the edge—perfect for students who love technology and want to be part of what's next. Every role plays a part in shaping the future of tech.

CAREER CLUSTER: MANUFACTURING & STEM

IDEAL FOR STUDENTS WHO LOVE TECHNOLOGY, ENGINEERING, AND PROBLEM-SOLVING, ASML US INC DESIGNS ADVANCED MACHINES THAT POWER THE WORLD'S MICROCHIPS. IT'S A GREAT FIT FOR THOSE INTERESTED IN PHYSICS, ROBOTICS, OR HIGH-TECH MANUFACTURING WITH GLOBAL IMPACT.
