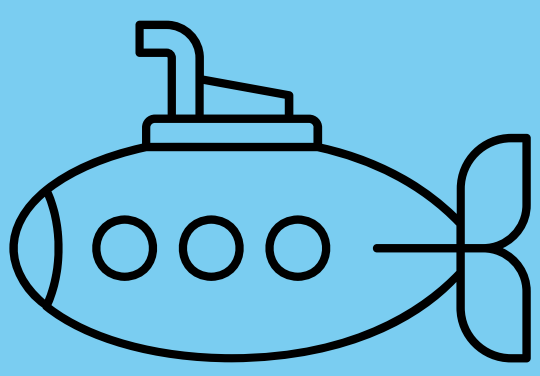
ELECTRIC BOAT

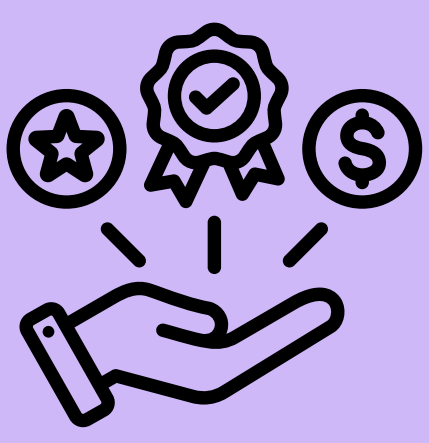
Groton, Connecticut

gdeb.com

BIG SHIPS, BIGGER OPPORTUNITIES

Electric Boat builds submarines for the U.S. Navy and is one of the best places in the state to kick off a career—especially if you want strong pay, real-world skills, and long-term stability without needing a four-year degree. As part of General Dynamics, this company offers jobs tied to steady government contracts, meaning your work is secure and important.



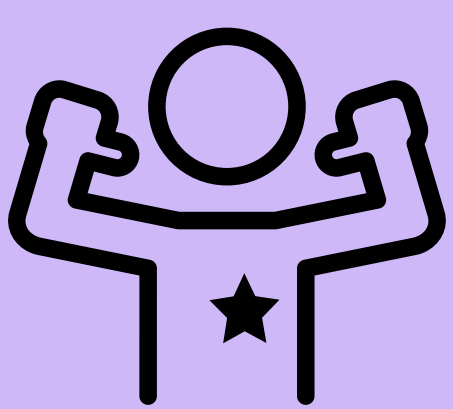


PERKS THAT STACK UP

Employees get awesome benefits like medical, dental, and vision coverage, retirement matching, paid holidays and vacation, and even access to on-site gyms and wellness coaches. It's the kind of support that helps you stay healthy, plan for the future, and enjoy life outside of work.

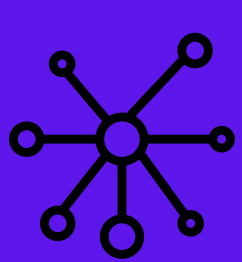
LEARN WHILE YOU EARN

You don't need to start with experience—Electric Boat trains you. Through paid apprenticeships, career training, and partnerships with local schools, they'll teach you everything you need to know. From welding to high-tech design, you can grow into roles across engineering, management, and more.



PROUD WORK, REAL IMPACT

Whether you're building something big or supporting a team that does, your work at Electric Boat matters. Employees feel proud of the mission, enjoy a team-focused atmosphere, and benefit from union-supported contracts that bring raises and better retirement plans. It's a career with purpose—right here in Connecticut.

CAREER CLUSTER: MANUFACTURING & STEM


IDEAL FOR STUDENTS WHO ENJOY BUILDING THINGS, SOLVING PROBLEMS, AND WORKING WITH TOOLS OR TECHNOLOGY. ELECTRIC BOAT IS A GREAT FIT FOR THOSE INTERESTED IN WELDING, ENGINEERING, MECHANICS, OR HANDS-ON MANUFACTURING WITH NATIONAL IMPACT.
