EVERSOURCE ENERGY

Berlin, Connecticut

Eversourceenergy.com

POWERING CONNECTICUT'S FUTURE

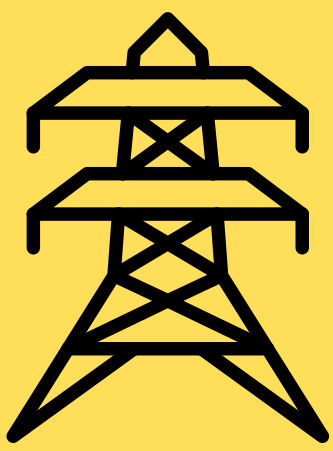
Eversource Energy is New England's largest energy provider, delivering electricity, natural gas, and clean energy solutions across Connecticut. With major facilities in Berlin, Hartford, and beyond, Eversource plays a critical role in keeping homes, schools, and businesses running—and offers meaningful careers in everything from field work to engineering to customer service.

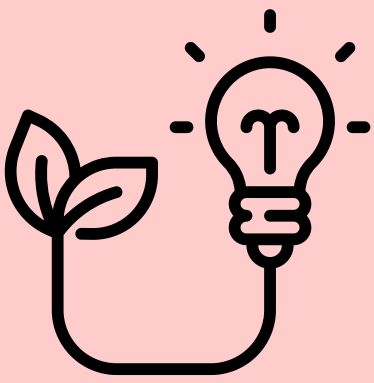
PERKS, PAYCHECKS & POSSIBILITIES

Eversource offers competitive salaries, excellent health and dental coverage, retirement savings with company match, paid vacation and holidays, and educational assistance. Many roles are union-supported, adding job security, regular raises, and extra protections for skilled trade positions like lineworkers and gas technicians.

TRAINING FOR TOMORROW'S GRID

No college degree? No problem. Eversource runs paid training programs, apprenticeships, and co-ops in trades like electric line work, meter operations, and substation maintenance. They also partner with technical high schools and community colleges to help young people launch long-term careers in energy.





GREEN ENERGY, REAL IMPACT

Eversource is leading the shift to renewable energy, including wind and solar projects. Employees say they're proud to help build a cleaner, more reliable energy future. Whether you're climbing poles, coding smart grid tech, or supporting customers, you'll be part of a mission that powers millions—and protects the planet.
