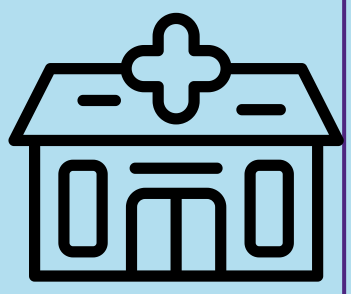
PERSONAL CARE IN A COMMUNITY HOSPITAL

Griffin Hospital, located in Derby, CT, is a nationally recognized community hospital known for its patient-centered care. It serves the Lower Naugatuck Valley and beyond with services like emergency care, surgery, cancer treatment, and wellness programs. With a strong focus on comfort, communication, and prevention, it's an ideal place for students who want to help people in a healthcare setting that feels like family.



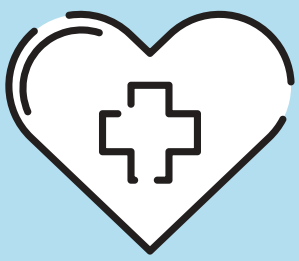
SUPPORT THAT CARES FOR YOU TOO

Employees at Griffin Hospital receive comprehensive health benefits, retirement plans, tuition assistance, and paid time off. The hospital also supports staff well-being through fitness classes, mental health resources, and a welcoming, close-knit environment where everyone's contribution is valued.

START IN SUPPORT, GROW IN CARE

You can begin in roles like patient transport, environmental services, front desk support, or dietary services—and grow into clinical areas like medical assisting, radiology, nursing, or therapy. Griffin Hospital partners with local schools and offers real-world training opportunities to help you level up your healthcare career.

HEALING WITH HEART



At Griffin Hospital, you're not just doing tasks—you're part of a mission to improve lives through compassionate, whole-person care. Whether you're helping a patient recover, keeping the hospital clean and safe, or supporting nurses and doctors, your work directly impacts people's well-being. It's a place where care feels personal—and so does your career.
