SCIENCE THAT SAVES LIVES

Pfizer Inc., with a major research campus in Groton, CT, is one of the world's leading pharmaceutical companies. They create life-changing medicines and vaccines used around the globe—including some of the most important COVID-19 treatments. From lab research and engineering to logistics and support, Pfizer offers powerful career paths for students who want to make a difference.

BIG BENEFITS, BIGGER PURPOSE

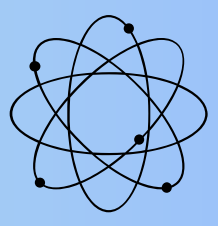
Pfizer offers top-tier pay, full health and dental coverage, retirement savings plans, paid time off, and tuition support. Employees also get access to cutting-edge labs, wellness resources, and an inclusive workplace focused on teamwork and integrity. It's a company that rewards curiosity and hard work.

START IN THE LAB, GROW ANYWHERE

Whether you want to be a scientist, technician, or project coordinator, Pfizer provides training, internships, and career paths that grow with you. Students can begin with research assistant or support roles and move into advanced areas like biochemistry, clinical research, or pharmaceutical manufacturing.

BE PART OF BREAKTHROUGHS

At Pfizer, your work can help fight diseases, improve health outcomes, and save lives around the world. Whether you're helping test a new cancer drug or supporting a global medicine rollout, you'll be part of something that truly matters. It's more than a job—it's a mission with impact.

CAREER CLUSTER: HEALTH SCIENCE, STEM, MANUFACTURING, AND RESEARCH & DEVELOPMENT


PERFECT FOR STUDENTS INTERESTED IN PHARMACEUTICALS, BIOTECHNOLOGY, LAB RESEARCH, DATA SCIENCE, QUALITY CONTROL, AND ADVANCING GLOBAL HEALTH THROUGH SCIENCE AND INNOVATION.
