POWERING THE SKIES, RIGHT FROM CT

Pratt & Whitney, headquartered in East Hartford, is a world leader in designing and building aircraft engines for commercial and military planes. Part of RTX (formerly Raytheon Technologies), this company plays a huge role in global aviation—and offers exciting career paths for anyone interested in aerospace, manufacturing, or engineering right here in Connecticut.

BENEFITS THAT GO THE DISTANCE

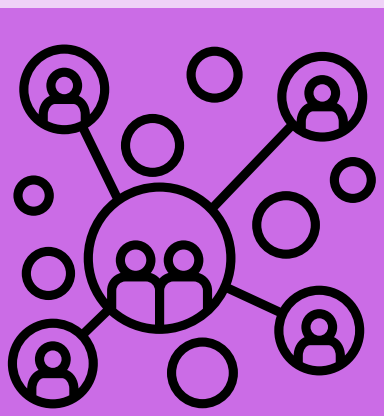
Pratt & Whitney provides strong pay, great healthcare, paid time off, and a 401(k) retirement plan with matching. Employees also get access to wellness programs, educational assistance, and job security thanks to long-term government and airline contracts. Union roles often include extra protections and scheduled raises.

LAUNCHPAD FOR YOUR FUTURE

The company invests in developing its people. That includes apprenticeships, internships, co-op programs, and partnerships with local colleges. Whether you're hands-on in the shop or working on high-tech design software, there are clear pathways to grow, learn, and move up in your career.

JET ENGINES WITH A PURPOSE

At Pratt & Whitney, you're not just doing a job—you're part of a mission to make flight more efficient, sustainable, and powerful. Teams work together on cutting-edge technology, and there's a strong sense of pride knowing your work helps power both commercial travel and national defense.

CAREER CLUSTER: HEALTH SCIENCE & MANUFACTURING


IDEAL FOR STUDENTS WHO ENJOY SCIENCE, HEALTH, AND HOW THINGS WORK, MEDTRONIC BLENDS BIOLOGY AND ENGINEERING TO CREATE LIFE-SAVING MEDICAL TECHNOLOGY. IT'S A GREAT FIT FOR THOSE WHO WANT TO MAKE A REAL-WORLD IMPACT THROUGH STEM.
